TEENS TOUR CINEMA

COURTESY PHOTO

Local teens toured Regal Cinema in Oceanside to learn about the many careers available in the film industry. They were encouraged to develop writing and artistic skills in school. Under the direction of Eugenia Bizzaro of Regal Entertainment, the kids became an honorary "Promotion Team," decorating the theater's lobby with posters on water safety. The group participates in Vista Community Clinic's Project Reach, an after-school program where the students learn communication skills, study habits, career planning and personal development. The program is designed to reduce teen pregnancy and gang involvement.
